# software engineer
# FLUTTER DEVELOPER

I am Abdelrahman, a software engineer and Flutter developer. Over the past four years, I have developed a variety of applications using Flutter, ranging from simple to complex apps. Please feel free to take a look at the apps I have created.

Why should you choose me?

Beyond my experience and passion, I am ready to make significant sacrifices for your company. Obtaining this position is essential to my dreams and aspirations, and I am committed to becoming one of your best employees. I believe that dedicated individuals are the most valuable asset to any company.

Thank you for reviewing my application.

** Moroccan Government Medical App **

I designed a medical app for the Moroccan government with strong security measures and a zero-tolerance policy for bugs. Due to confidentiality, I cannot disclose all of its features, but I emphasize my commitment to meeting the strict requirements of the government
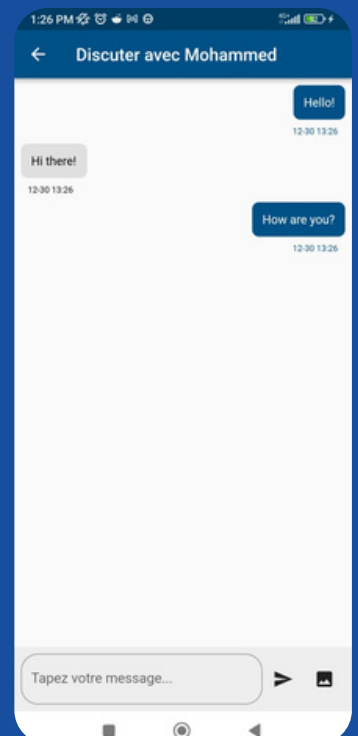

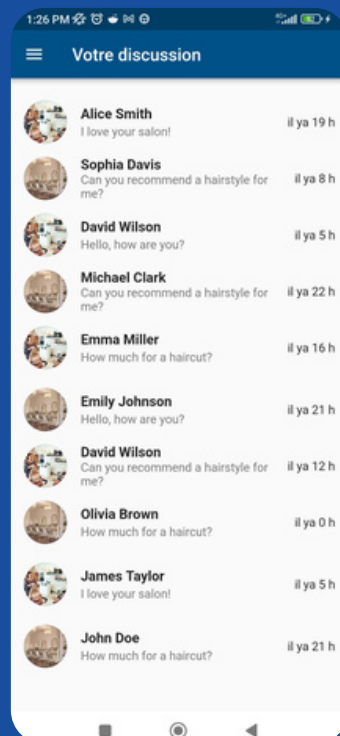

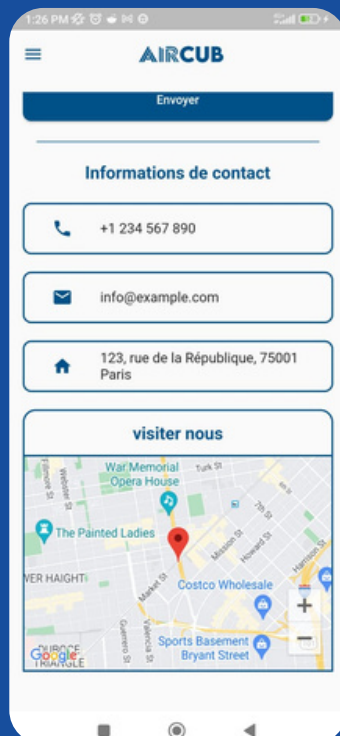

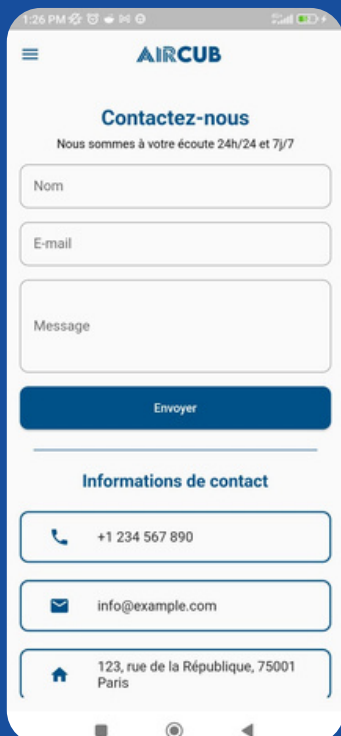

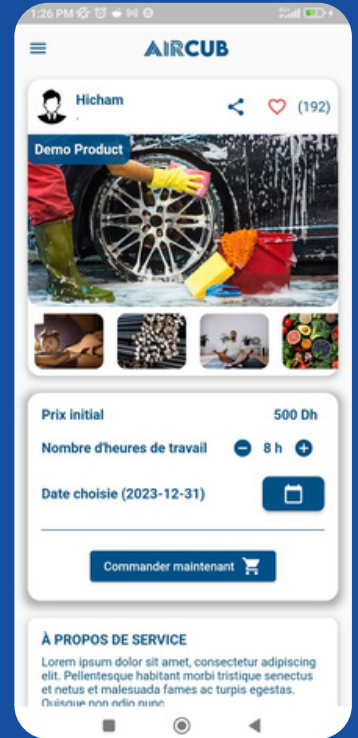

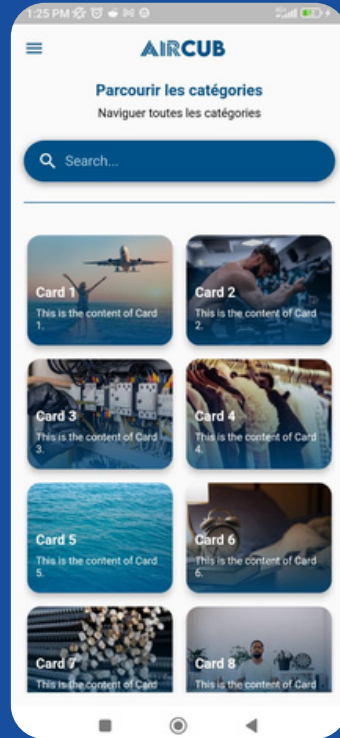

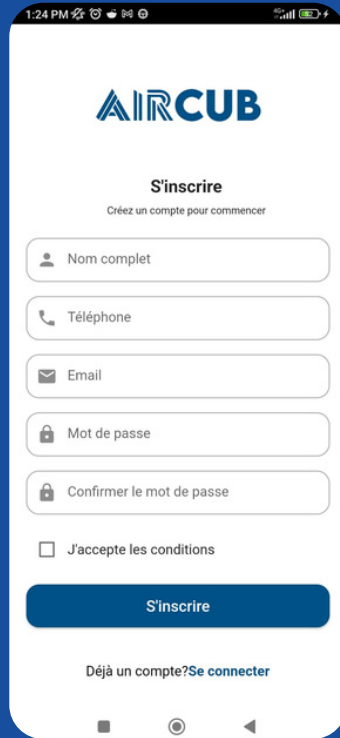

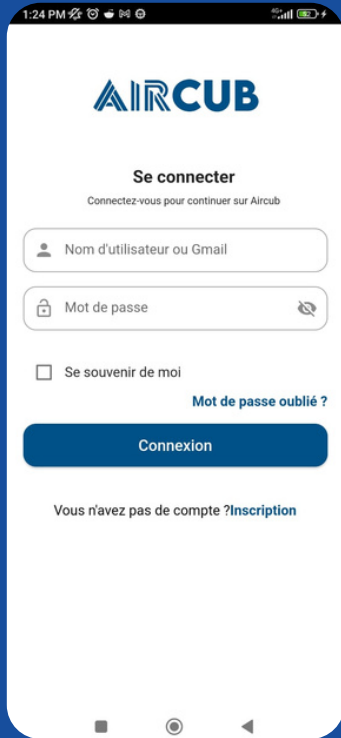

Swap RX is a comprehensive physician substitution management system that alleviates the hassle of paper-based processes and appointment management.
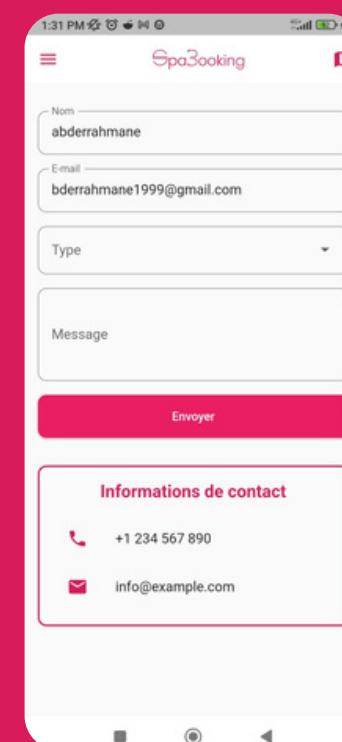

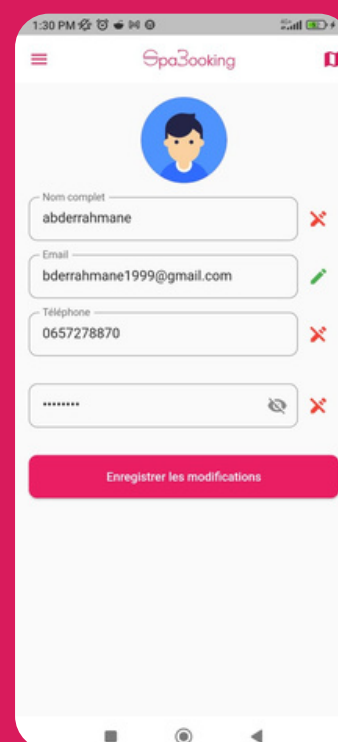

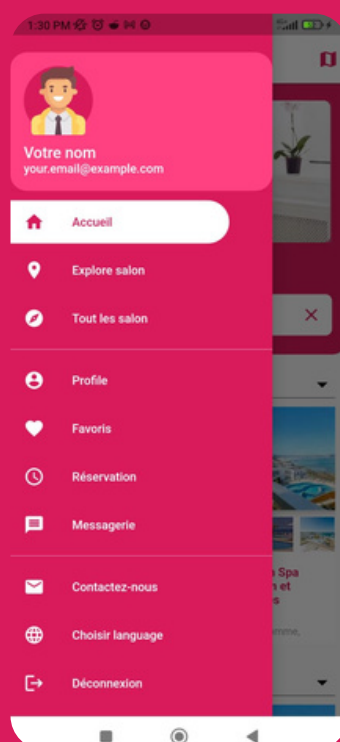

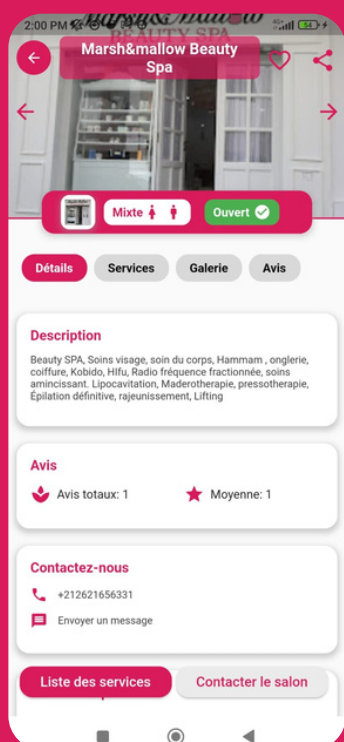

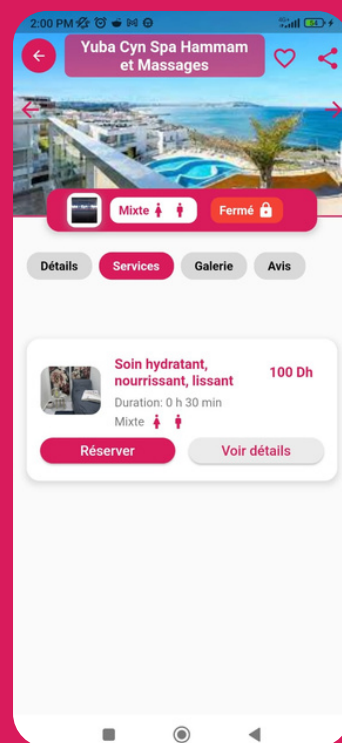

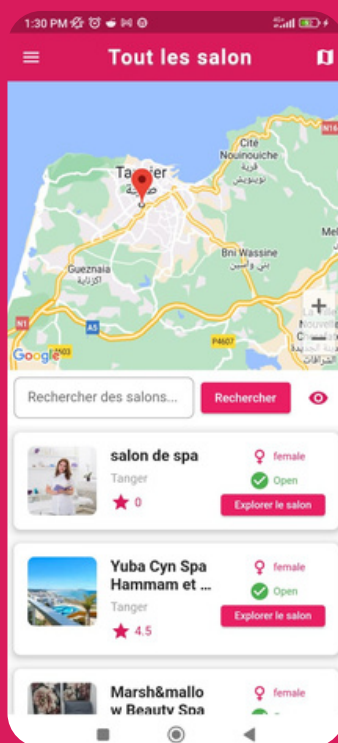

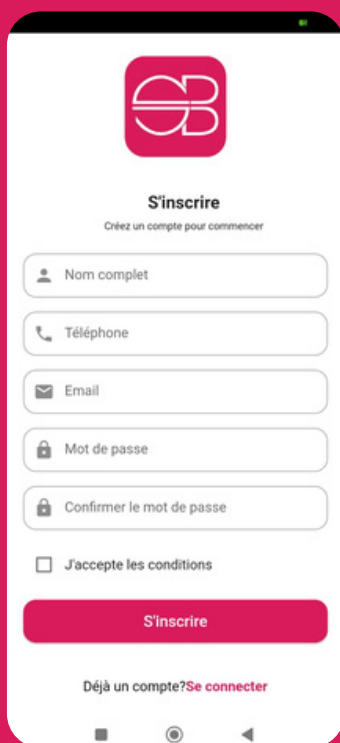

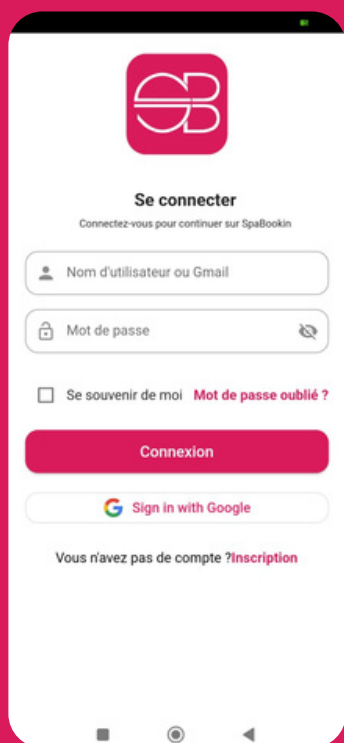

# AIRCUB

An app similar to Amazon for labor services that seamlessly connects providers and customers.
